Army Ground Maintenance Monitor

NEW

Requirement 43095

Location: Fort Irwin, CA

NOTE: This IS NOT an Information Technology (IT) related position; referenced data IS NOT digital data in an IT sense, but more appropriately described as maintenance information. Therefore, an IT background such as being a network manager or a Microsoft Certified Technician are not necessarily desired background skills. What is viewed as not only desirable, but virtually mandatory, is qualification within an Army 63 or 91 series MOS.

Summary: To monitor and collect operational, supply and maintenance data, verify all data for accuracy, record data on SDC Forms, enter data into computer, perform edits and correct errors, write reports and brief Army personnel, as required.

Essential Duties and Responsibilities: include the following.

- Provides onsite briefings/training to participating unit personnel regarding Sample Data Collection (SDC) procedures and unit responsibilities.
- Monitors operation procedures and operating performance on SDC Program equipment.
- Monitors maintenance being performed on SDC program enrolled equipment.
- Collects all operational, supply and maintenance information (data) needed to complete SDC forms and to write Special Reports and required monthly reports.
- Completes all SDC forms with accurate data and information in a timely manner after all NSN data has been verified.
- Enters data into onsite computer, processes data to include running and correcting edits, transmits data to supervisor and follows all other instructions from technical staff.
- Runs output products from onsite computer and maintains records on who requested the output product, what it is to be used for and the tangible or intangible benefits derived from it.

Supervisory Responsibilities: This position does not have any supervisory responsibilities.

Qualifications: To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education and/or Experience:

High School Diploma required. Associate Degree a plus. Status of completion of degree or relevant work experience may be substituted for Associate Degree. Knowledge of the Army maintenance and logistics program. Knowledge of Army chain of command, operating procedures, Army Regulations and Standard Procedures. Knowledge of Army Maintenance Regulations and Procedures. Computer knowledge or experience.

and apply to either position if you are interested in potential employment with Vencore

Data Project Manager

Requirement 44123

Location: Fort Irwin, CA

Summary: This is an exempt management position responsible for the overall supervision of project personnel at the location. Data Project Manager is responsible to the Regional Manager and Program Manager for Data Monitor performance at his/her site, and responsible for program operation, including employee selection, training, work planning, data submission, and responding to customer contractual requirements.

Essential Duties and Responsibilities: include the following.

- Understands Statement of Work (SOW) and fulfilling contract commitments.
 - Ensures timely and complete data submission by the site.
 - Ensures adherence to program data collection processes and procedures.
 - Assists the Regional Manager in identifying data points for Sample Data Collection effort.
 - Maintains inducted unit training schedules at the site.
 - Trains new personnel on data collection processes and procedures.
 - Performs data quality assurance checks of reviewed operations and maintenance data.
 - Reports changes of senior leadership within the site and helps coordinate site visits.
 - Prepares and submits required site monthly reports.
 - Ensures mandatory training is conducted.
 - Conducts quarterly Government Furnished Equipment inventories.
- Manages and oversees data monitor activities and work requirements.
- Executes the management directives of the Regional Manager, APM, and PM.
- Coordinates with the Regional Manager for surge assistance in managing backlog.
- Ensures program personnel within the site are receiving appropriate logistics support.
- Provides primary liaison between program personnel and Regional Manager.
- Responds to the Regional Manager in a timely manner.
- Keeps the Regional Manager informed on all site requirements, issues, and concerns.
- Ensures site personnel adherence to all corporate policies and procedures.
- Ensures all coordination for Human Resource, Finance, Travel, and Administrative Support is directed to the Program Manager's office as a "First Stop".
- Approves employee timesheets / expense reports, and manages employee vacation schedules.
- Completes annual performance reviews and counsels employees as required.
- Sets priorities for data collection effort.
- Identifies employees on site interested in OCONUS assignments.
- Recognizes and recommends awards for site employees.
- Participates in periodic phone and video-teleconference meetings.
- Ensures site briefing is kept up-to-date and ready for presentation at all times.
- Performs other duties as assigned.

OTHER JOB-RELATED SKILLS

Ability to work well with others (co-workers, business clients, company employees, customers)

Ability to report to work on a regular basis and in a timely manner. Must possess strong computer skills with demonstrated proficiency in standard business software packages which include database software, spreadsheet software, word processing software, Internet software (e.g., Microsoft Office)

Work Environment: The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Qualifications, Education and/or Experience:

- B.S. degree in business management or a related technical field, or equivalent work experience.
- Extensive background in US Army military vehicle maintenance and procedures.
- Experience or education in computer capabilities, requirements and benefits.
- Extensive experience in managing personnel.
- Experience with collection, analysis, and quality control of data.
- Superior oral and written communication skills.
- Good applied mathematical skills.
- Ability to obtain and maintain a security clearance.
